*Each annual subscription includes reports for the current calendar year only. Historical data is sold separately.

Each report type includes:

PRODUCTION AND SALES BY END-USE DATA

Tracks production and sales figures for current month and year-to-date. These industry sales data can be used to track overall market growth rates and trends in domestic and export markets as well as key detailed end-use market segments.

PRELIMINARY SALES AND PRODUCTION DATA

Provides an early snapshot of the prior month's overall performance, with reports typically published within 10 business days following month-end. Production, total sales, and export data are presented for the current month.

INVENTORY DATA

Inventory data can offer insight into the strength of a resin business. Includes opening and/or closing inventory data for the current period.

CAPACITY DATA

Capacity data can be used in combination with production and/or sales figures to calculate and track operating rates and trends.

SALES TO THIRD PARTIES DATA

Tracks sales of resin by process grade that are sold through third party channels.

EXPORT SALES BY GEOGRAPHIC REGION DATA

Breakdown of export sales data into eight geographic regions (Mexico, Latin America, Europe, Middle East, Africa, China, Asia/Pacific, and Unknown).

PRODUCTION AND SALES BY PRODUCT TYPE DATA

Breakdown of PP production and sales data by four distinct product types (homopolymer, random copolymer, impact copolymer, and other).

SALES TO MAJOR MARKETS DATA

Breakdown of total sales data for major commodity resins into ten major market categories (transportation, packaging, building and construction, electrical/electronic, furniture and furnishings, consumer and institutional, industrial/machinery, adhesives/inks/coatings, all other, and exports).

HISTORICAL DATA

Resin production and sales reports are also available electronically from 2001. Sold separately. View details on the subscription order form or contact ACC for pricing information and for special new-subscriber discounts.
