

# PU 102B: Rigid Polyurethane Foam Market Overview

## Introduction

## What is Rigid Foam?

## Polyurethane Chemistry

## Key Raw materials

- i. Isocyanates
- ii. Polyols
- iii. Surfactants
- iv. Catalysts
- v. Blowing Agents

## Physical Testing and Performance

- i. Flame Retardants and Flammability

## Applications and Processing Technologies

- i. Pour-in-place
- ii. Discontinuous Panels
- iii. Continuous Panels
- iv. Spray
- v. Bun-Stock
- vi. Flotation
- vii. Others

## Questions
